

HAZ~MAT
ENVIRONMENTAL

The logo features the text "HAZ~MAT" in a large, bold, blue, italicized sans-serif font, with a tilde symbol (~) between the words. Below it, the word "ENVIRONMENTAL" is written in a smaller, bold, blue, italicized sans-serif font. A thin horizontal line separates the two lines of text. The logo is set against a background of thick, stylized, overlapping lines in orange and dark blue that form a shield-like shape on the left and flow into a wavy pattern at the bottom.

Your Responsible Environmental Services Partner

"Because every project is unique, our professional customer-focused services are tailored to meet your needs. You focus on business operations while our experienced team oversees your project."

Doug Wilson, Sr. Manager

HAZ~MAT's late model vacuum truck fleet

HAZ~MAT Environmental Services:

Your One-Stop Environmental and Industrial Services Partner

HAZ~MAT has become the Southeast's premier environmental service company by consistently executing four core practices:

- 1** We hire exceptional personnel so you get consistently reliable service. By having the best, most experienced personnel in the industry, we ensure your project is completed correctly each and every time.
- 2** We take responsibility for your desired outcomes. Our associates are held accountable for completing your project effectively while meeting all your requirements.
- 3** We provide you with reliable services at a fair price as our project managers offer personalized solutions to meet your needs.
- 4** We give you exceptional customer service. This means you always speak to a live, friendly person when you call and you receive the same crews, working in a safe, professional manner.

HAZ~MAT is the turnkey solution for all of your industrial, environmental and remedial service needs.

Peace of Mind: Training, Safety & Insurance

From initial hire through years of employment, our associates go through extensive training that allows HAZ ~ MAT to offer safe, quality services that comply with all EPA/OSHA/DOT regulations. From confined space entry to hazardous waste handling, feel confident all HAZ ~ MAT personnel are trained well above the industry standard. HAZ ~ MAT's impeccable safety record reflects our commitment to safe work practices, which allows HAZ ~ MAT to meet even the most stringent safety protocols.

HAZ ~ MAT's insurance coverage is among the best in the industry. With higher levels of coverage, HAZ ~ MAT is committed to protecting our associates, the environment and most importantly you and your company. Get the peace of mind that comes from knowing your environmental service provider offers a higher level of liability protection on every project.

Services for Today and Tomorrow

HAZ~MAT offers a full array of environmental and industrial services for both hazardous and non-hazardous materials. One of many reasons for HAZ~MAT's success is our fleet of late model trucks, trailers and specialty vehicles utilized in the following functions and services:

- Industrial Services
- Transportation Services
- Remediation Services
- Emergency Response Services
- Underground Camera & Utility Services
- Reclamation, Recycling & Waste Management Services

Your Premier Southeast Solution

As the Southeast's premier environmental services provider, HAZ~MAT is the convenient solution for all your environmental needs. With offices in Charlotte, NC, HAZ~MAT is strategically-located to provide reliable service throughout the Southeast. When you need same-day service, our centralized headquarters allow for timely dispatch to your jobsite. There's no time to waste when your process line is down or there's an emergency release - call HAZ~MAT and we'll promptly send the right crew and equipment to handle your project.

HAZ ~ MAT Industrial Services

HAZ ~ MAT realizes no two projects are the same. One call gets you custom, cost-effective solutions for your industrial service needs. We'll evaluate your unique situation and recommend the best short- and long-term solutions.

With reliable equipment and experienced field teams, you can rest easy knowing your project will be handled accurately and on-time.

- Project Management and Clean-up
- Tank Truck Rollover
- Spill Containment

HAZ ~ MAT Underground Camera & Utility Services

Underground Camera & Utility Services, a Division of HAZ ~ MAT Environmental Services, LLC, has offered quality sewer system evaluation and repair services since 1995. By combining reliable and trained technicians with cutting edge technology, HAZ ~ MAT customers get a complete line of sewer and utility services.

HAZ ~ MAT serves water and sanitary districts, municipalities, engineering firms and numerous contractors throughout the Southeast. Whether it's a one-time project or your annual maintenance contract, HAZ ~ MAT provides unparalleled service and expert personnel.

Closed Captioned Television (CCTV) Data Organization

When you require an organized database, including digital video and photography, HAZ ~ MAT's Underground Division is your solution. Whether your pipe is 2 inches in diameter or 72 inches in diameter, HAZ ~ MAT's fleet of vehicles are equipped with state-of-the-art underground camera equipment to handle all aspects of your project. We integrate computer technology with video inspection software to ensure your database is complete and delivered in a timely manner. To guarantee you receive the best solution, all of our underground utility methods conform to rigorous federal and state specifications.

Before

After

Typical Utility Services

- Sanitary Sewer and Storm Drain CCTV
- Sanitary Sewer and Storm Drain Cleaning
- Root Cutting and Heavy Cleaning
- Lateral and Manhole Rehabilitation
- Manhole Inspections
- Smoke Testing
- Flow Monitoring
- Environmental Spill Cleanout
- PACP Certified

HAZ ~ MAT Reclamation, Recycling & Waste Management

HAZ ~ MAT processes over 2.5 million gallons of recyclable petroleum materials including oil, jet fuel, and other industrial fuels into reusable products. By choosing HAZ ~ MAT, you're choosing a provider committed to making a responsible choice for the future. HAZ ~ MAT handles the recycling process from start to finish - transporting your product, recovering your recyclables and properly disposing of non-processable material.

Responsible management of all residual waste is required in today's industry. Whether you create solid waste, hazardous waste or a recyclable material, HAZ ~ MAT has a viable solution. Our waste specialists focus on safety, regulatory compliance and customer service to ensure wastes are handled in a responsible, efficient manner. HAZ ~ MAT's in-house laboratory verifies all incoming materials match existing profiles and are suitable for treatment at our facilities.

Instead of using multiple companies to handle your recycling and waste disposal needs, choose HAZ ~ MAT as your one-stop environmental services partner. HAZ ~ MAT reduces client liability by accepting "generator status" for properly identified and manifested non-hazardous materials. Hazardous waste is properly packaged, labeled, manifested and transported to RCRA approved facilities in accordance with customer requirements and federal, state, and local regulations.

HAZ ~ MAT lab tech verifying incoming materials
